Wheel Hub Bearing

Edition 2026

WHEEL HUB BEARING

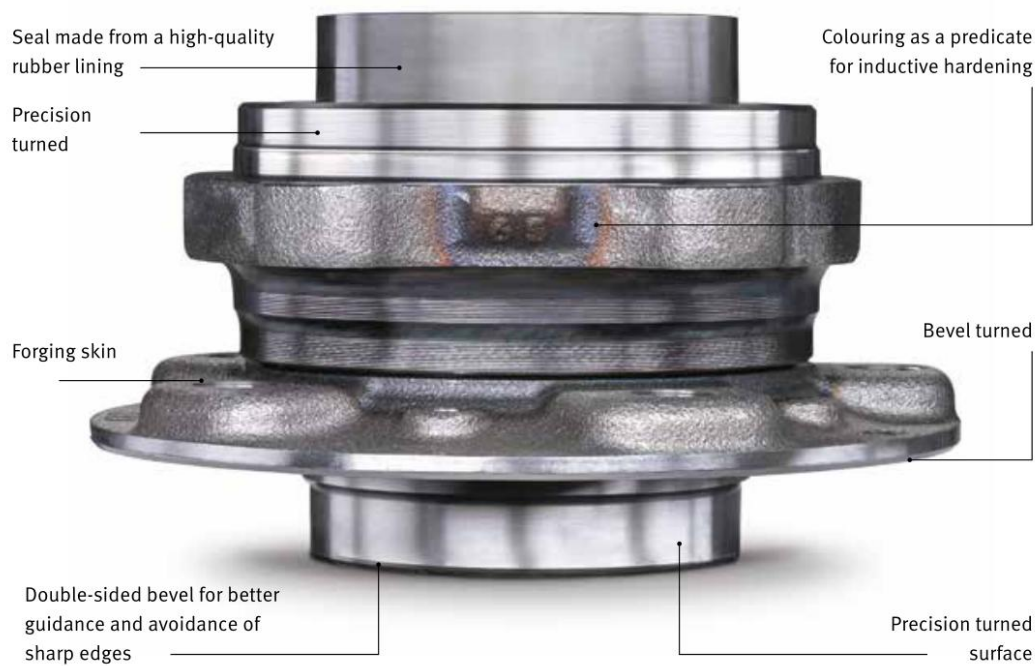

Mzautopart is aftermarket manufacturer of wheel bearings in china; these safety-critical components are manufactured on every continent.

Quality and performance are at the core of our success, but product reliability and driver safety is also among our highest priorities.

The wheel hub bearings are produced using the most advanced technologies incorporating the best quality steels, lubrications, heat treatments, seals, etc.

Before the production run of any bearing, all our prototype bearings are tested for 18 months to ensure compliance with the manufacturers' technical specifications

The more wheel bearing can be found from our shop, such as Mercedes Benz , AUDI , Land Rover , Jeep , VW , Porshec , Toyota , Ford , Jaguar Hummer , Rolls Rocyce , Citroen , Chevrolet . Hyundai , Lexus and other lux cars

BEARING REMOVAL AND INSTALLATION INSTRUCTIONS

Always check the technical manual relating to the vehicle.

- Prepare the vehicle and the necessary tools before starting the installation. Make sure they are clean and in good condition.
- Make sure that the kit is the right one. Take the bearing out of its packaging at the last minute and place it on a clean work surface.
- Clean the parts and assemblies located near the bearing and make sure that they are in good condition. In particular, inspect for scratches, scrapes or dents on the hub, stub axle and drive shaft. Replace any damaged or worn parts.
- Do not remove any parts which are not included in the kit.
- Never disassemble or separate the components of a bearing.
- For correct installation of the bearing, always use suitable tools.
- Always apply fitting pressure through the outer ring of the bearing, the installation force must never be transmitted through the seal or inner rings (pressure through the seal or inner rings will result in internal damage to the bearing, making it noisy and fail prematurely)
- Apply the tightening torques recommended by the manufacturer (this can be found on the label of the kit)

WHY CHOOSE OUR BEARING?

- A wide range of standard and special bearings
- 4 range extensions per year
- A range that covers all of registered vehicles throughout the world
- A broad range for European/ Asian/America applications: Mercedes Benz , AUDI , Land Rover , Jeep , VW , Porshec , Toyota , Ford , Jaguar Hummer , Rolls Rocyce , Citroen , Chevrolet . Hyundai , Lexus and other lux cars
- All components (caps, bolts, circlips...) are included in the kits
- The correct tightening torque is printed on the wheel bearing kit box
- we are a development and supply partner to major vehicle manufacturers
- Guarantee 1-3 year , 100,000-200,000km
